SREEKAR REDDY ATLA

Director — Enterprise Architect & Founder · AI Governance · Cloud · ARB · ~$500K/yr cost-avoidance shipped · 21 yrs

sreekaratla81@gmail.com · +91-9052333290 · Hyderabad, India · linkedin.com/in/sreekaratla

ISB CTO Programme · MS AI/ML (LJMU, UK) · Pursuing GenAI w/ Azure OpenAI (Great Learning) · **21+ years** (22 by Dec 2026)

Seeking: Director / VP Enterprise Architecture · Head of AI / Platform Engineering · Principal / Staff Architect — *GCCs · FinTech & Mortgage-tech scale-ups · ISV product companies · Azure-heavy enterprises*

EXECUTIVE SUMMARY

Director-level Enterprise Architect specialising in **LLMs, fine-tuning, MLOps**, and RAG systems across Azure, AWS, and GCP. 21+ years spanning enterprise architecture, presales, and as a hands-on founder. Currently lead enterprise architecture and the AI rollout for **Sagent** (US mortgage-servicing platform) at Codincity, while running a **portfolio of hospitality-tech products under Atlas** — Atlas Homestays (operating business, ₹75L topline · ₹60L bottomline), Atlas PMS (multi-tenant SaaS), and atlastays.com (marketplace) — built solo over evenings and weekends on an AI-native SDLC. Day-to-day involvement is minimal.

Comfortable from C-suite strategy down to writing the merge commit at midnight.

SELECTED OUTCOMES

YEAR	OUTCOME	CONTEXT
2025	**~$500K USD/yr cost avoidance designed and shipped**	AI-assisted Application Portfolio Catalogue · 557+ apps · zero ARB failures · retiring Orbus iServer365 — Codincity / Sagent · Recognised by client CIO
2024	**₹75L topline / ₹60L bottomline business built and operated**	Atlas Homestays — bootstrapped, multi-property, 7 staff, on a self-built multi-tenant SaaS PMS (.NET 8 / Azure / React / DORA) — solo founder, evenings & weekends
2023	**30% of TAO Digital's annual revenue closed**	Director, Solutioning + Presales — AI / cloud / GenAI deals across media, hospitality, finance
2022	**$10M AWS platform win (Tillman Telecom, US)**	Principal Cloud / AI Solutions Architect — Tech Mahindra · Standing Ovation Award
2011–21	**30% infra cost savings across 10-year client engagement**	GEICO · 4 progressive senior roles at AIS · 1,000+ APIs re-architected (+400% perf)
All-up	**$100M+ deals worked / $15M+ closed personally · 30–40 RFPs/year ownership at peak**	Tech Mahindra Cloud CoE Head + TAO Digital Solutions Director

CORE EXPERTISE

Enterprise Architecture — TOGAF · ARB Governance · NFRs · ADRs · C4 · Target-state · Build-vs-buy

Cloud & FinOps — Azure · AWS · GCP · Landing zones · WAF compliance · RI/SP strategy

AI / GenAI / LLMs — LLM solutioning · Fine-tuning · MLOps · RAG · LangChain · GPT/BERT/Llama

Engineering Excellence — DORA · CI/CD platforms · SRE · Observability · Release-gate engineering

Pre-sales & Solutioning	RFPs · $5M–$100M deals · 30–40 RFPs/year · C-suite proposals	**Delivery Leadership**	Cross-functional teams · Distributed (US/India) · Agile/Scrum/Kanban
Industries	Mortgage Servicing (FinTech) · Insurance · Telecom · Logistics · Hospitality · Media · Public Sector *(proposal)*		

EXPERIENCE

Codincity Digital Technologies — Director (Enterprise Architect, JL6B)

Strategic Account: Sagent (US mortgage-servicing platform) · Chennai (operating from Hyderabad / Hybrid) **28 May 2024 – Present**

🏆 **Signature Initiative — AI-Assisted Application Portfolio Catalogue (APC), 2025**

- **557+ applications** catalogued across Sagent's full technology landscape — authoritative inventory for the EA practice.
- Authored a structured framework + **Python automation suite** with LLM-assisted field classification, enforced by a **10-rule validation framework** (unique-ID, app type, business domain, capability, tech stack, lifecycle, operational status, authentication, compliance, data classification).
- Aligned with Sagent's **TOGAF-based EA standards**; **zero failed validations** against the official ARB ruleset.
- **Foundation for retiring OrbusInfinity iServer365** — Sagent's incumbent EA-portfolio SaaS — replacing it with the APC as authoritative inventory for the EA practice.
- Projected ~$500,000 USD/year cost avoidance upon Orbus contract non-renewal in October 2026.
- Presented to Sagent CIO (**Matt Tully**) and leadership — recognised: "*very impressed with what we have and especially with where we are headed.*"

Enterprise Architecture (Fintech Product)

- Lead **Regional & Global ARB** with TOGAF-aligned approval gates; Power Platform process automation embedded in the gate workflow.
- Driving system modernisation: **monolith** → **microservices on Kubernetes & Docker**; CI/CD on Jenkins + Azure DevOps.
- Defined and enforced **event-driven architecture guidelines**; monitored violations and mentored teams across services.
- Evaluated and selected **Zuplo API Gateway** via structured comparison against APIM, Kong, Apigee.
- Built Kubernetes sizing models, system context diagrams, and HA scaling strategies.
- Driving **GenAI adoption** via Bing Chat Enterprise, Copilot, and LLMs for support-workflow automation.

Concurrent — Presales Head (Hospitality, Cloud, AI/ML, Product Engineering, Emerging Tech)

- Concurrent Presales lead for hospitality, cloud, AI/ML, product engineering, and emerging-tech deals — RFP/RFI scoping, architecture proposals, solution demos, and technical orchestration.

🏅 Outstanding Award for Customer Delight — Codincity, Jan 2025

TAO Digital Solutions — Director, Solutioning, Strategy & Engineering

Head of Engineering + Presales Lead · Hyderabad **Jun 2023 – May 2024**

- Closed deals contributing 30% of TAO's annual revenue (FY23); led presales and solutioning across cloud, GenAI, product strategy.
- Delivered AI accelerators: **Copilot chatbot for sales enablement** + **Metadata Enrichment Service** — cut manual effort by 40%.
- Architected **Condé Nast digital content modernisation** (cloud migration) — authored the proposal, led delivery as architect, and established engineering discipline across the team.
- Directed full-stack teams across DevOps, QA, Support, Cloud, AI/ML — delivering AI/ML solutions in media, hospitality, finance.

Tech Mahindra — Principal Cloud / AI Solutions Architect (Field CTO, Americas) · Head, Cloud CoE

Hyderabad / Remote · Primary: Americas, Secondary: EMEA **Mar 2021 – Jun 2023**

- Led **Cloud CoE and presales architecture for 30–40 RFPs/year**; deal sizes **$5M – $100M**.
- **$10M AWS platform build for Tillman Telecom (US)** — flagship win.
- Delivered **multi-cloud architectures and landing zones** (Azure, AWS, GCP) for telecom (Tillman), logistics (**UPS** — cloud-native re-architecture), and US enterprise clients.
- Built reusable observability accelerators and presales templates deployed across the Cloud CoE RFP pipeline.
- **Audited Azure accounts** for Microsoft WAF compliance — identified and remediated compliance gaps against partner certification requirements.
- Designed CI/CD and Kubernetes architectures across hybrid environments; patterns adopted by delivery teams across accounts.
- Served as technical lead in CIO/CTO conversations during $10M+ deal pursuits at US enterprise clients.

🏅 Standing Ovation Award (TechM, 2022) 🏅 Outstanding Contributor

Applied Information Sciences (AIS) — Senior Architect for GEICO

Decade-long client-architect tenure · Hyderabad · 9 yrs 4 mos **Dec 2011 – Mar 2021**

Drove 30% infra cost savings across the GEICO engagement. Four progressive senior roles.

- **AI/ML & Presales (2019–2021):** Python/Flask automation; **AI-driven resume-screening app for HR**; presales proposals (UN e-voting platform); Docker + Azure DevOps automation.
- **Azure SRE Architect (2018–2020):** Observability platform on Azure Monitor + Elasticsearch + Prometheus; improved real-time analytics & alerting.
- **DevOps Architect (2015–2018):** CI/CD on Terraform + Azure DevOps; SonarQube + Veracode quality gates; zero-downtime Docker deployments.
- **.NET Application Architect (2011–2015):** Re-architected **1,000+ APIs** — +400% performance; standardised testing and code-review.

Earlier Career — Broadridge, Virtusa, Vertex

Foundation in C# / .NET / SQL Server / Financial Services / Insurance **Dec 2004 – Oct 2011**

- **Broadridge Financial Solutions** (Sep 2007 – Oct 2011) — Development Lead. Led 14-person team on **Cash Management Application (Ascendis suite)** — C#, ASP.NET 4.0, WCF, SQL Server, BizTalk, Silverlight, WPF, AJAX, SSIS. 🏅 Best Contributor + Best Project of the Year, 2008–2010
- **Virtusa India** (Jul 2006 – May 2007) — Lead Software Engineer. Architected interactive TV platform for UK client; merged multilingual codebases for InForm (C++, COM/DCOM). 🏅 Outstanding Newcomer of the Year, 2006
- **Vertex Computer Systems** (Dec 2004 – Jul 2006) — Lead Software Engineer. EPA-compliant toxic-release reporting; modules for Italian public administration (IIS, web services, B2C).

ENTREPRENEURIAL VENTURE

Founder & Operator — Atlas Group (Hospitality-tech portfolio)

atlashomestays.com · atlaspms.in · atlastays.com — three live ventures + productisable PMS modules, built solo over evenings & weekends on an AI-native SDLC **2022 – Present**

Atlas Homestays *(2022 – Present)* — Operating hospitality business

- ₹75L topline · ₹60L bottomline · 80% margin (FY2024) — full P&L ownership across multi-property operations, 7 staff, OTA distribution.
- **Multi-entity structure:** multiple sole proprietorships + a private limited company for revenue routing, GST, and tax compliance.
- **OTA / channel integrations** (Airbnb, Booking.com), dynamic pricing, GST/TDS compliance, multi-entity financial routing.
- **Operational outcomes:** Booking confirmation *hours → seconds* · Manual admin workload −80% · Occupancy +15%.

Atlas PMS *(launched 2026)* — Multi-tenant SaaS for property management

- The platform that runs Atlas Homestays, now onboarding external clients — **10 properties live on the platform**.
- **Stack:** .NET 8 · Azure App Service · Azure SQL · React 18 + Vite · Cloudflare Pages · Auth0 · Playwright · GitHub Actions
- **Multi-tenant SaaS:** per-tenant isolation via EF global filters; tenant-resolution middleware; white-label custom domains; Auth0 RBAC across 8 personas.
- **Process automation:** Power Platform (Apps, Automate, BI) for staff workflows + analytics; Twilio messaging; IoT smart-lock controls.
- **DevOps / CI/CD:** GitHub Actions pipelines · Swagger API contracts · automated release gate (Playwright E2E + .NET integration tests blocking every merge to main).
- **GenAI in production:** Grok-powered guest chatbot live on atlastays.com handling FAQ-class questions; iterating toward RAG over property and booking data.

> **DORA metrics in production (measured, not aspirational)**
> Deployment Frequency: **3–5 / week** across 5 repos · Lead Time for Changes: **<45 min** commit-to-prod · Change Failure Rate: **<5%** · MTTR: **<30 min** via runbook-driven incident response.

atlastays.com *(launched 2026)* — Multi-tenant marketplace for hotel owners

- Hospitality marketplace built on Atlas PMS — **30 properties listed**, with **4 hotels live on free white-label custom-domain websites**.
- Tenant-resolution middleware + per-tenant branding; each hotel runs its own subdomain or fully-mapped TLD.
- **Strategic flywheel:** Atlas Homestays = proof property · Atlas PMS = engine · atlastays.com = distribution.

Productisable modules inside Atlas PMS *(each could spin out as a standalone product)*

- **Channel Manager** — OTA sync to Airbnb and Booking.com; dynamic pricing; centralised inventory across properties.
- **WhatsApp Guest-Comms (Interakt-style)** — Twilio-based messaging stack with templates, automation flows, and booking-event triggers.
- **IoT Smart-Lock Control** — keyless entry, per-stay PIN provisioning, audit trail.
- **Power Platform Staff-Workflow Layer** — Power Apps for housekeeping/maintenance, Automate for ops triggers, Power BI for property analytics.
- **AI Guest Concierge** — Grok-powered chatbot live on atlastays.com handling FAQ-class questions; iterating toward RAG over property and booking data.

HONOURS & AWARDS

🏅 **Outstanding Award for Customer Delight** — Codincity, Jan 2025 — *strategic architecture leadership and GenAI-led innovation*

🏅 **Standing Ovation Award** — Tech Mahindra, 2022 — *deals over $10M*

🏅 **Best Contributor + Best Project of the Year** — Broadridge, 2008–2010

🏅 **Outstanding Newcomer of the Year** — Virtusa, 2006

🏅 **National-level Recognition (IETE)** — Robotics & Technical Quiz, 2002–2003

EDUCATION & CERTIFICATIONS

- **Generative AI Programme** (with Azure OpenAI) — Great Learning *(2025–Present, in progress)*
- **CTO Programme** — Indian School of Business *(Apr–Oct 2024)*
- AWS Cloud Practitioner *(2022)*
- Microsoft Certified — Azure Solutions Architect *(2015)*
- PMI-ACP Agile Certified Practitioner *(2014)*
- Microsoft Certified Solutions Developer *(2013)*

- **MS, ML & AI** — Liverpool John Moores University, UK *(2022)*
- **PGP Cloud Computing** — Great Lakes Institute *(2021)*
- **PGP AI/ML** — IIIT Bangalore *(2020)*
- **UpGrad Entrepreneurship Programme** *(2016)*
- **Social Entrepreneurship Programme** — CSIM *(2014)*
- **B.E., E&C Engineering** — Osmania University *(2004)*
- **eDAST** — CMC *(2002)*
- Six Thinking Hats *(2009)*

Background: Co-built a functional robotic arm with DRDO during B.E. · 96th percentile, national IT aptitude

TECHNICAL DEPTH

Cloud	AWS · Azure · GCP · Azure DevOps · MLOps · LLMOps · AWS CodePipeline · Lambda · Azure Functions · GCP Cloud Functions · CoreStack
AI / ML / GenAI	LangChain · Azure ML · TensorFlow · PyTorch · GPT · BERT · Llama · Mistral · Vector DBs · RAG · SageMaker · NLP · CNN · RNN
API & Backend	.NET 8 · Node.js · Python · Apigee · APIM · Mulesoft · Zuplo · Visual Studio
